Agreement	**EMKO**	Nordic Certification Service,
		[A] Automatic Procedure **[B]** Exceptional procedure *)
		Operating since: 1963 Statistics: Yearly about 2500 primary certificates issued
	Secretariat:	C/o Nemko AS, Norway
	Management:	EMKO-OP group, meeting as required. Chairman: Mr. T. Sollie, Nemko AS
	Advisory body:	EMKO-STR group, meeting as required. Chairmanship: The host body, by turns.
	Technical support:	Technical Secretariats: TSB, TSE, TSI, TSL and TSM (Household, Electronic, Installation, Lighting and Electromedical Equipment)
Area	Market:	Intended for the Nordic market, but recognized also outside.
	Signatories:	The Nordic certification bodies DEMKO, FIMKO, SEMKO and Nemko. Iceland has observer status, since no longer has own certification body.
	Laboratories:	Signatory laboratories, and accepted CCA and CB laboratories + SMT and TMP procedures applicable world-wide
Product categories	Electrical equipment for which applicable standards exist.	
Openness	No geographical limitation for manufacturing.	
Standards	Valid ENs, HDs, IEC Standards or specific Nordic requirements.	
	[A] Procedure:	All listed national differences to be covered *)
Fees and Surcharge	Certification/licence fee(s) determined by each signatory. No surcharge is applicable.	
Certification mark	The signatories' respective marks apply, i.e. (D), (FI), (S) and (N)	
Secondary application	**[A]** Procedure:	• Either automatic by transfer of Nordic certification document from the primary body to the secondary bodies, (provided that the applicant has notified the primary body about applicants for the secondary countries concerned), or otherwise • applicants in the secondary countries may apply to the secondary bodies on the basis of the same documents received via the applicant for the primary body.
	[B] Procedure:	Applicants in the secondary counties may apply to the secondary bodies on the basis of documentation received via the applicant for the primary body.
Secondary test sample	**[A]** Procedure:	Not required, but the secondary bodies reserve the right to require test samples in cases of doubt.
	[B] Procedure:	Test sample(s) must be submitted to the secondary bodies concerned.
Production surveillance	Agreed to be performed by the primary body in line with common European procedures CIG 021. For product categories where CCA routine tests do not exist, common Nordic guidelines may be used.	
Remark	*)	For exceptional cases whene it is impossible to check all national differences, when dispensation have been given or when common accepted standards are not available, the (B) procedure may be used. Special Nordic differences to appear in EMKO collocation documents.
